The Alternative Social Impact Report

At the beginning of the academic year, 350 scholarship recipients joined the organization. They will volunteer within the framework of the "Thank You Day" Initiative. This initiative led by Latet, is dedicated to say thank you to nurses, security guards, cleaning people and so many more who are too often ignored.

During our Rosh Hashanah operations, more than 1,200 people from Israel and abroad donated food and money, worth about $29 million. This money was then used to distribute 280,000 food boxes, containing 24 pounds of food each, as well as 22,000 non-perishable products. This initiative, in partnership with MasterChef, broke all previous audience and donations records.

Two delegations of ENT specialists arrived from France for a very special project dedicated to distribute hearing aids to 169 survivors of the Holocaust and social support – both medical and psychological. In December 2019, 200 of these packages arrived from France.

In 2019, we executed 22 social events, such as the "Youth Inspire" conference, intended to strengthen and empower young mentors, and the "Food Rescue" campaign. We also held a number of other social events, and the last one was a fantastic concert by "Hadag Nahash", one of the most famous Israeli bands.

Thanks to our collaboration with one of the leading companies in Israel and the support of the general public, we were able to renovate 445 apartments with the help of personal volunteers – we executed 22 social events, and the last one was a fantastic concert by "Hadag Nahash", one of the most famous Israeli bands.

Volunteers and partners along the way

Volunteers and partners have been at the forefront of Latet’s mission since 1978. Together, we have created a network of regular volunteers, food safety, and volunteers of 2019.

We are all equal, that's the motto of Latet Youth. There is no difference between religions, race, gender and color. At Latet Youth, we don't only speak about these values, we also put them into practice.}

Increase in food rescue

In 2019, we distributed 280,000 food boxes, containing 24 pounds of food each, as well as 22,000 non-perishable products. This initiative, in partnership with MasterChef, broke all previous audience and donations records.

The Alternative Poverty Report

The multidimensional poverty index developed by Latet shows that in 2019, there are 17% more families in Israel living in poverty, among which 15% have children. This is giving an accurate picture of the poverty and nutritional insecurity of the population.

According to the 2019 data of the Israel Central Bureau of Statistics, 20.9% of the population (17% of the people living in poverty) and 28% of the children (26% of the people living in poverty) live in poverty.

Latet’s partner NGOs.}

In 2019, more than 15,000 food boxes were distributed with the help of the supermarket chain Shufersal. As part of the Rosh Hashanah national food rescue, we collected more than 280,000 pounds of food from different social aspect: volunteers and partners. More than 1,200 people from Israel and abroad donated food and money, worth about $29 million.

The way ahead

In 2020, Latet is creating a new social impact report, which will be published on our website. The report will provide an overview of the organization's activities during the year, including our work in poverty reduction, food rescue, and community involvement.
